Pozzi-Ginori è storia dell'arte e del design italiani della porcellana da bagno. Le sue origini risalgono al 1735, quando il marchese Carlo Ginori dette inizio, fra i primi in Europa, alla creazione di splendidi manufatti in quel prezioso tipo di ceramica che allora era chiamato "l'oro bianco". La sua Manifattura di Doccia, a nord ovest di Firenze, divenne presto fra le massime d'Europa. Nel tempo, con la Ginori si fusero le altre manifatture ceramiche progressivamente in Italia: prima quella di Giulio Richard, poi la Società Ceramica Italiana di Laveno, quindi la Pozzi. Ognuna di queste, prima da sola, poi integrandosi alle altre, ha segnato le varie tappe della sapienza e della tecnologia italiane nella progettazione e nella realizzazione di prodotti sanitari in porcellana. Con l'iniziare e poi l'affermarsi dei metodi e della prassi dell'industrial design, fin dal 1918 grandi designer hanno contribuito a scandire tali tappe: Giò Ponti, Guido Andlovitz, Studio Nizzoli, Le Corbusier, Giovanni Gariboldi, Antonia Campi, Gae Aulenti, Paolo Tilche, Matteo Thun e Antonio Citterio. Pozzi-Ginori entra in Sanitec nel 1993, e continua la sua grande tradizione con immutata costante capacità innovativa. Dal 2015 Pozzi-Ginori fa parte del Gruppo Geberit.

Pozzi-Ginori represents the history of Italian art and design in bathroom ceramics. Its origins date to 1735, when Marquess Carlo Ginori was one of the first people in Europe to begin manufacturing splendid objects in a precious grade of ceramics they used to call "white gold". His Doccia Factory northwest of Florence quickly became one of the largest in Europe. Over time, Ginori merged with other ceramic manufacturers that progressively sprang up in Italy: first, there was Giulio Richard, then the Laveno Italian Ceramic Company, and finally Pozzi. Each manufacturer began on its own, then merging with the other, as they established milestones in Italian technology and expertise in the design and creation of bathroom ceramic products. As the methods and practices of industrial design originated and then asserted themselves, great designers have helped articulate various stages since 1918: Giò Ponti, Guido Andlovitz, Studio Nizzoli, Le Corbusier, Giovanni Gariboldi, Antonia Campi, Gae Aulenti, Paolo Tilche, Matteo Thun and Antonio Citterio. After entering the Sanitec Group in 1993, Pozzi-Ginori has continued this grand tradition with its unchanging, constant capacity to innovate. From 2015 Pozzi-Ginori is part of the Geberit Group.

GINORI

1735

Carlo Ginori avvia la produzione di porcellane nella sua villa. Due anni dopo inizia l'attività della Manifattura di Doccia. Carlo Ginori starts ceramics production in his villa. Two years later begins Doccia Manufacturing activity.

RICHARD

1824

Giulio Richard e soci: Manifattura di Strada a Torino. Giulio Richard and associates: Manifattura di Strada in Turin.

1840

Richard si trasferisce a San Cristoforo, Milano. Richard moved to San Cristoforo, Milan.

1896

Richard compra Ginori: Società Ceramica Richard-Ginori. Richard acquires Ginori: Società Ceramica Richard-Ginori.

1965

Richard-Ginori incorpora la SCI di Laveno. Richard-Ginori incorporates SCI in Laveno.

LAVENO

1856

Manifattura di Laveno. Nel 1883 diventa Società Ceramica Italiana. Laveno Manufacturing. In 1883 becomes Società Ceramica Italiana.

1975

SCI Richard-Ginori e Pozzi si fondono. Nasce la SCI. SCI Richard-Ginori merged with Pozzi. SCI Pozzi-Richard-Ginori born.

1993/1994

il Gruppo Sanitec acquisisce attività e marchio della ceramica sanitaria. The Sanitec Group acquires activities and brand of bathroom ceramics.

2015

Geberit AG acquisisce il Gruppo Sanitec. Geberit AG acquires the Sanitec Group.

POZZI

1868

Francesco Pozzi e figli in Ripa Ticinese a Milano. Francesco Pozzi and sons in Ripa Ticinese, Milan.

1906

Luigi Pozzi e soci: Manifattura Ceramica Pozzi. Luigi Pozzi and associates: Ceramica Pozzi Manufacturing.

1908

si trasferisce a Gattinara. move to Gattinara.

La tecnologia Rimfree® è il risultato di anni di sviluppo e progettazione di un sistema di scarico innovativo che ha portato all'eliminazione della brida nei vasi, risolvendo così il problema dell'igiene e della pulizia del bordo del wc. Grazie ad una particolare fenditura posizionata nella parte posteriore interna del wc, il flusso dell'acqua scorre sulla superficie interna del vaso con una forza maggiore rispetto a un wc standard, pulendolo in modo efficace. La tecnologia Rimfree®, presentata per la prima volta al mercato nel 2013, viene introdotta ora nei vasi di ogni nuova serie oltre che in alcune delle linee già a catalogo della gamma Classic.

The Rimfree® technology is the result of years of development and design of a innovative washdown system that allows to eliminate the presence of the rim in the water closet solving the problem of hygiene and cleanliness of the toilet. Thanks to a special slit on the back and inside of the toilet, the water flow stream into the internal surface of bowl with a force greater than a standard wc, cleaning it effectively. The Rimfree® technology was presented for the first time to the market in 2013, it's now introduced into the water closet of each new collection as well as in some series in the catalogue of the Classic section.

risparmio idrico saving water

Il problema della scarsità d'acqua è in aumento a livello globale. L'uso che ne facciamo attualmente non è più sostenibile, e il risparmio di acqua è l'elemento chiave nella pianificazione di nuovi progetti di sviluppo. I progetti Pozzi-Ginori hanno alla base questo presupposto. Non è solo una riflessione, ma la fonte di ispirazione dei prodotti innovativi, conformi alle nuove norme e super performanti. Cerchiamo di ridurre drasticamente il consumo di acqua, senza comprometterne lo stile e il design dei prodotti. La gamma Pozzi-Ginori conta diversi vasi a scarico ridotto a partire da 4 litri, questo significa un notevole risparmio d'acqua, che va fino al 50% se paragonato ai modelli tradizionali presenti sul mercato.

The problem of water scarcity is increasing globally. Current usage is not more sustainable, and water saving is a key element in planning for new developments. The Pozzi Ginori products design has this in mind. It's not an afterthought, it's an inspiration for innovative products, meeting the new regulations and performance. We seek to reduce water consumption dramatically, with no compromise in style and design. The products range Pozzi-Ginori has several Wc's to discharge reduced starting from 4 liters, this means a considerable saving of water which goes up to 50% if compared to the traditional models on the market.

si tratti di poesia, di musica o di arredamento, parliamo di composizione quando degli elementi vengono disposti secondo un'idea e un ritmo. è l'ordine che gli dà l'immaginazione a renderli "componibili".

be it poetry, music or furnishings, when various elements are arranged according to an idea or a rhythm, we're talking about composition. It's the order our imagination gives them that makes them "modular".

raggio

raggio unisce la purezza delle linee e delle forme ad un'offerta di soluzioni quanto mai ampia. il design razionale ed essenziale dei sanitari insieme alle diverse soluzioni di lavabi, dalle forme morbide o più geometriche, permette di arredare l'ambiente bagno con grande versatilità. l'elevata qualità delle ceramiche assicura alle superfici una lucentezza durevole nel tempo in grado di armonizzarsi con naturalezza in ogni ambiente. la collezione si impreziosisce anche con i mobili in finitura bianco lucido e gli specchi con illuminazione fluorescente a risparmio energetico, per ricreare uno spazio personale e ancora più funzionale.

raggio unites the elegance of clean, simple forms with the convenience of a wide range of solutions. the rational, unfussy design of sanitary ware together with a choice of washbasins in softly curving or more geometric shapes ensure versatile solutions to bathroom furnishing. the superior quality of our ceramics gives surfaces a long-lasting shine that will look good in any style of bathroom. the series is enriched by a collection of white high gloss furniture and mirrors with fluorescent energy saving lighting to create a very personal and functional bathroom.

soluzione rivoluzionaria

Il rivoluzionario vaso Rimfree® non ha brida. L'assenza di brida vuol dire che non c'è alcun punto in cui la sporcizia e i germi si possono nascondere. Il suo design ultra igienico rende facile la pulizia, e senza l'ombra del bordo, il vaso assume un aspetto più pulito e brillante. Il sistema di lavaggio spazza via i residui in modo efficace e regolare, la pulizia è più semplice che mai. La tecnologia Rimfree® di Pozzi-Ginori è stata concepita inizialmente per soddisfare le richieste delle strutture sanitarie e pubbliche europee, volte a minimizzare il rischio di infezioni nelle apparecchiature del bagno. La stessa tecnologia è stata ora incorporata nel design contemporaneo delle nostre ultime collezioni che includono Rimfree®.

molto facile da pulire

Senza la brida, la pulizia quotidiana è più facile e più veloce: è sufficiente una rapida passata di spugna per ottenere un risultato assolutamente brillante. Inoltre, vengono impiegati meno prodotti per la pulizia, perché non c'è la necessità di spruzzare detergenti sotto la brida per eliminare sporcizia e batteri: il tutto a vantaggio dell'ambiente.

ecologico

La tecnologia Rimfree® utilizza lo scarico a partire da 4 litri utilizzando fino a circa il 70% di acqua in meno rispetto a un vaso standard.

revolutionary solution

The revolutionary Rimfree® toilet has no rim. With no rim it means there's quite simply nowhere for germs to hide. Its ultra hygienic design makes it easy to clean – and with no rim shadow, the bowl looks cleaner and shinier. The flushing system clears away residue effectively and regular cleaning is simpler than ever before. Rimless technology was initially conceived to meet the stringent demands of sanitaryware for use in healthcare and public buildings with the key objective of minimising the risk of infection. The same technology has now been incorporated into the contemporary styling of our latest collections that include Rimfree®.

so easy to clean

Without a rim regular cleaning is easier than ever before – a quick wipe over with a cloth produces sparkling results every time. You could even use less cleaning products as there is no need to squirt product under the rim to get rid of the germs you can't see: all for the benefit of the environment.

and so Eco too

The Rimfree® technology uses also the 4 liters discharge, using up to about 70% less water than a standard toilet.

Pozzi-Ginori collections with Rimfree®

come funziona

1. L'acqua fluisce nel vaso attraverso una fenditura posizionata nella parte posteriore interna del wc. La forma particolare dell'apertura consente di direzionare il flusso dell'acqua intorno al vaso lavandolo in modo silenzioso ed efficace.
2. Il design intelligente assicura che l'acqua entri nel vaso con un'angolazione precisa, mantenendo forza e velocità. La forma e le dimensioni dello scarico sono stati progettati in modo tale che la pressione dell'acqua sia in grado di eliminarne il contenuto in modo rapido e semplice.
3. Grazie all'assenza della brida, il vaso risulta più pulito e più brillante.

how it works

1. Water cascades into the toilet pan from a slot at the internal back of the bowl. The particular shape of the slit allows to direct the flow of water right around the toilet and rinsing it clean quietly and effectively.
2. Smart design ensures that water enters the bowl at precisely the right angle to maintain its speed and force. The shape and size of the toilet sump means that the pressure of the water pushes contents away quickly and smoothly.
3. With no rim the bowl looks cleaner and brighter.
